

ESSENTIAL HOSPITALS VALUE-BASED CARE COLLABORATIVE

Powered by Premier

America's Essential Hospitals and Premier have partnered to help essential hospitals prepare for and succeed in value-based care payment models.

The Essential Hospitals Value-Based Care Collaborative (Essential Hospitals VBCC) helps member hospitals and health systems manage financial risk for Medicaid, uninsured, and underinsured populations and integrate social determinants of health with value-based care. The collaborative also supports your employee health, Medicare fee-for-service, Medicare Advantage, and commercial populations. Key collaborative objectives include:

Help members transition to value-based care and value-based payment for Medicaid, uninsured, underinsured populations, and other payers

Provide strategies based on Premier's population health capabilities assessment tools and the member's unique and evolving environment

Serve as an incubator for novel ideas and leading practice development

Accelerate dissemination of strategies to reduce costs and improve outcomes of Medicaid, uninsured, and underinsured populations

Convene forum on best practices to generate a sustainable ROI in value-based purchasing models

Operationalize best practices that will impact the social determinants of patient health and well-being

Develop a strategy for measuring, benchmarking and trending vulnerable population performance*

The Essential Hospitals VBCC partners with Premier's market-leading Population Health Management Collaborative (PHMC) and its strong track record across payer-agnostic accountable care models helping members:

★ Improve care delivery, quality, and efficiency

★ Enhance patient experience

★ Optimize health system-clinician alignment

★ Enhance financial performance

★ SUPERIOR COST AND QUALITY PERFORMANCE ★
