

**Mechelle Sanders, PhD**  
Instructor/Co-Investigator  
Department of Family Medicine Research  
University of Rochester

Mechelle served as a Co-Investigator on this RWJF Cost of Medications project. She is a recent graduate of the University of Rochester, where she majored in Health Services Research & Policy. She will officially join the faculty in the Department of Family Medicine at the University of Rochester as an instructor in June of 2019. She has worked on several NIH funded studies in the areas of cancer screening disparities, patient navigation, patient portals, and provider--patient communication about physical activity. Mechelle's research interests include racial, ethnic, and socioeconomic disparities in health outcomes; as well as dissemination and implementation research in underserved populations.

**Domitilla Masi, MS**

Senior Manager, Center for Healthcare Transformation  
Avalere Health

Domitilla Masi is a Consultant at Avalere Health, a Washington DC-based advisory services firm. Domitilla supports clients across the healthcare system in adapting their business models and practices to achieve value-based care through Avalere’s Center for Healthcare Transformation.

She applies her expertise in health care delivery system reforms and new and emerging alternative payment models, with a special focus on the shift toward patient engagement, shared decision making and patient-centered care. Prior to joining Avalere, Domitilla was a research assistant at the Brookings Institution’s Center for Health Policy, leading qualitative and quantitative research on alternative payment and delivery models, health IT, and Affordable Care Act implementation.

Domitilla has an MS in health, population, and society from the London School of Economics and Political Sciences and a BS in anthropology from University College London.
